

THE COMPANY

Since 1993 Team Leyland International Ltd has been a leading exporter of heavy/ light commercial Vehicles, and premium 4x4 products. The reputation of 'Team Leyland International' for **Total Transport Solutions** spans the world.

In nearly 20 years of operations we have supplied British Government Departments, International oil and mining companies, overseas contractors, Aid agencies (NGOs) Defence Ministries, Overseas Governments, Diplomatic Missions, Emergency services, EU projects, and the United Nations. The growing portfolio of customers put their trust in our experience and total commitment to supplying the product on time, to the right place, and providing vital 'in service back up' and total equipment support.

As major suppliers to project co-ordinators and buyers, we use fully equipped specialist body shops & workshops to convert, modify and up-rate standard vehicles to meet our customers exacting requirements. The customisation of vehicles is for use in many specialist roles (a few of which are listed below). As major exporters we also have a good appreciation of homologation, and legislation standards applicable in various parts for the World.

LOGISTICS AND SUPPLY

We regularly ship vehicles to various parts of the world, and can arrange direct delivery of vehicles to the customers' requirements. We can react quickly to urgent vehicle requirements whether it is for standard vehicles, or specialist vehicles. We are a 'one stop shop'. Contact Team Leyland for your rapid deployment requirements

VEHICLE SPARE PARTS SUPPLY

We support many customers around the world with spare parts, offering competitive prices and a prompt service. Additionally we hold a supply contract with our local County Council to provide a range of vehicle spare parts for some of their Emergency Vehicle Fleet.

We also offer an integrated supply service for all automotive requirements including tyres, batteries and specialist workshop equipment. This has been especially useful for operators of small vehicle fleets in remote locations, around the world

TOTAL SUPPORT

As part of an established European network, Team Leyland International offers you the confidence and backing of total service and support. Comprehensive spare parts facilities make it possible for us to support your existing vehicles, provide spare parts kits with new deliveries and support vehicles throughout their working lives. We can supply parts and workshop manuals, either in hard copy or electronically. Vehicle diagnostic systems, specialist service tools, and on-site technical service training courses.

A Few recently completed Contracts in 2011 include;

*Rapid deployment of engineer and spare parts to Africa to repair British Government Vehicles *Supply of Spare parts to the UN, to support operations in DRC *Supply of specialist '6 dog van', to the Bangladesh Police *Supply of vehicle diagnostic support overseas to UK government * Driver training for the Zambian Police * Supply of Police vehicles to UK Government dept for overseas use * Supply of workshop tools and equipment to major UK NGO, * Workshop tools, automotive parts, for use by one of the ISAF partners in Afghanistan
